

Public Accuracy Test

Glen Arbor Township Hall

July 22, 2021

Attendance: Pam Laureto, Tom Laureto, Michele Aucello

Public: Jans Stump

Election Commission meeting was called to order at 10 am by P. Laureto.

Pledge of Allegiance

P. Laureto explained that the purpose of the test is to verify that the equipment to be used for the August 3, 2021 election works properly, using the state-provided test deck of ballots. The preliminary accuracy test was conducted two days ago.

Laureto opened the test deck and conducted the accuracy test on the precinct tabulator. She explained that the test deck contains errors and the machine picks up those errors and alert the voter to the error before being asked to cast their vote. After verifying that the test desk results matched the print-out she printed the tape and signed it. She checked the auxiliary bin, removed the ballots, re-zeroed the machine, and powered it down. T. Laureto verified the tabulator serial number with that on the tape.

The process was repeated for the absentee voter counting board tabulator. Once finished. P. Laureto put the test deck, the results from the preliminary accuracy , the results from today's test, the original seal that was broken, and the signed Tabulator Program Testing and Security certification in the transfer bag. She signed the ballot container certificate and resealed the bag.
